

MicrobiomeX[®]

First-in-class Flavobiotic[®]

100% Natural Citrus Fruit

Stimulates Gut Immune System

Enhanced Microbiome Composition

Clinically Proven

First-in-class Flavobiotic[®]

MICROBIOMEX[®] is a natural citrus flavonoid extract designed to support gut health and immunity by lowering inflammation and beneficially shifting the gut microbiome composition and enhancing its natural capabilities.

Clinically Proven Effects; Dual Action

The dual action of MICROBIOMEX[®] has been validated in a 12-week randomized, double-blind and placebo-controlled clinical trial.

MICROBIOMEX[®] enhances gut barrier function and lowers intestinal inflammation.

- MICROBIOMEX[®] induces a positive shift in microbiome composition, resulting in a significant increase in butyrate production. Butyrate is a pivotal short-chain fatty acid (SCFA) supporting immune function.
- MICROBIOMEX[®] flavonoids are released in their active form at the level of the gut mucosa, protecting the gut wall against free radicals and lowering gut inflammation.

Unique Positioning

MICROBIOMEX[®] is a first-in-class Flavobiotic[®] that protects the gut barrier and leverages the gut microbiome's potential. The dual action of MICROBIOMEX[®] makes it a unique gut health product.

Wide Range of Applications

MICROBIOMEX[®] has a low daily dose of 500mg that allow you to use it in a wide range of formulations. MICROBIOMEX[®] low water activity makes it a viable ingredient for formulation with probiotics. Possible applications of MICROBIOMEX[®] are as powder ingredient, capsules, non clear beverages, sachets or tablets.
